Re: Manifest No. MI 0050285

Gentlemen:

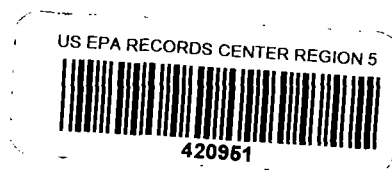

Pursuant to State and Federal hazardous waste regulations (Act 64, P.A. of 1979, as amended, Sections 33 and 34, Administrative Rules 806 and 807; and 40 CFR, Parts 262 and 263, Subparts B), specific information must be included on the manifests accompanying shipments of hazardous waste.

Attached is a copy of a manifest that was prepared by your company that is in violation of the aforementioned regulations. It contains errors and/or has been improperly or incompletely filled out. Each error, improper or incomplete portion of the manifest is highlighted with a yellow marker. The specific violations are listed below:

The generator EPA identification number is assigned to Davis Manufacturing in Clawson, Michigan.

The Act 64 (Hazardous), the Act 136, or Other box at the top of the manifest form has not been checked. If the waste is a managed hazardous waste, regulated under Act 64, the Act 64 box should be checked.

The manifest copy identified by the number MI 0050285 must be corrected and returned by August 10, 1983.

Failure to properly complete the waste disposal manifests may result in the wastes being rejected by the disposal facility and/or formal enforcement action by our agency. Please take the necessary steps to assure that future manifested wastes are complete and correct. If you have questions concerning procedures for preparing waste manifests, contact this office at (517) 373-2730.

Sincerely,

Raemie Garrison
Waste Evaluations Unit
Hazardous Waste Division
